

Healings Side by Side!

On September 22, 2010 I was told that my personal testimony that I'd sent into Andrew Wommack's ministry was on his website. I went to the site and click on "Testimonies" and discovered that my email sent back in February of 2010 was at the top of the list. A couple that I'd encouraged in the Lord by phone and who'd read some of the booklets I'd put together, told me they'd seen it and wanted me to know. This couple had been introduced to the truth about grace and faith through one of our newer congregants. I decided to read further testimonies expecting to read powerful, overwhelming, and demonstrative testimonies far beyond what we at Lord of Lords BCC had experienced. They have millions of people with tens of thousands of testimonies coming in while we are a congregation of seventy to hundred. To my surprise many of the listed testimonies reminded me of our own. I was encouraged to see that we were not far in content and variety to the same things God was doing through this greater ministry in size and influence. God has been awesome among us and although we are small in number our testimonies are big. I have listed a number of testimonies from **AWMI.Org** alongside similar testimonies from **Lordsbcc.com**. I hope this encourages your heart as it has mine.

The following format shows the testimony from AWMI.Org first, then one or two from our own Lordsbcc.com.

AWMI.ORG

07/23/10 — "I couldn't walk or sit without passing out..."

I had a heart attack in 2004, and I started going to a Baptist church. My health got a lot worse. I couldn't walk or sit without passing out. I was lying on the couch one day, and something

told to turn the television on. When I did it, you were teaching. I was completely shocked—I had never heard teaching like that. Well, I was fired up. I learned you were going to have a conference in three weeks, and I was going to be there. I had my sister pick me up and let me out right at the steps. I knew I could make it to a seat and I did. I was in that seat for almost three hours and felt the Holy Spirit all over that room. When it was over, my sister said she would get the truck and pick me up at the steps. I told her I would just walk with her to the truck, which happened to be at the far end of the south lot. I was healed and she was shocked! My life has been blessed in so many ways. Thanks, Andrew, for your teachings and praise the Lord.

R. A. Colorado Springs, CO

-Another man who had suffered many years with periodic back problems and pain knew while working in his garage that he'd injured his back again. He felt tremendous pain after lifting heavy weight. He fell to the ground and laid on his back. The pain was so severe he couldn't get up. He waited ten minutes in hopes that his injury would disappear. He'd felt the familiar pain and the sense of water running up his back. He waited another ten minutes and his wife came out to see him. She was going to call "911" but he asked her to wait with him another few moments. He tried to get up again and the pain was overwhelming. He knew he was in trouble. He decided to pray the way (the preacher) had been teaching. **He spoke in the name of Jesus for his back pain to stop and that he'd be okay.** After a few minutes again he tried to get up; this time he could move and only felt stiffness. He was able to get up with very little pain. He said prior to this event that he wasn't sure he

believed in healing or the power of God but God graciously answered him despite his uncertainty. God confirmed His word showing his will to heal.

AWML.ORG

07/12/10 — "I experienced something real..."

My husband and I just returned from a *Gospel Truth Seminar*. I want to tell you the wonderful things the Lord did for me there. He showed me many times during the conference how much He loves me. That may sound like a cliché, but I experienced something real, something that went beyond an emotional experience from good praise and worship and good Bible teaching. I experienced the reality of God's love. The Holy Spirit ministered to me for the entire three days. During the first night in the worship service, I saw streams of light shafts falling around me enveloping me in God's presence. Fire flames were coming off the palms of my hands during worship. Each night after the meetings, I walked away stronger in His love. While there will be many reports of salvations, infillings of the Holy Spirit, and physical healings, my testimony is that I came and was refreshed and refilled with an awesome weekend in God's presence and love.

-One lady said that she had been struggling with panic and depression having entered into menopause. It was so oppressive that she didn't want to go to church. She decided to pray the way (the preacher) had been teaching. **She spoke the**

name of Jesus and having laid her own hand upon her chest rebuked the fear and depression. She spoke to it declaring God's will for her that she is free in Jesus. Within a short period of time she testified that the oppression lifted. She came to church and shared her victory with the congregation!

AWMI.ORG

06/25/10 — "I can't get enough of the Truth..."

I just had to say thank you for your website again. I found your audio teachings a couple of weeks ago. I was only aware of the television episodes prior to this. I downloaded everything you had and have been listening ravenously every minute I can. I won't go into it all, but I've been a "hurt," "victimized" Christian most of my life. I've mourned over an abusive marriage for twenty-five years. The Lord has opened my eyes through your teachings *God's Kind of Love Through You* and *How to Be Happy*. I laughed when I heard you talk about Jesus saying how we wouldn't be married in heaven.

I've studied the Word for almost two years, and this opened so much of the abundant life God's planted in me. Thank you for all you do to share the Truth with us. I can't get enough of the Truth! God bless you and Jamie and your ministry!

M.

Lordsbcc.com

-A Woman's married daughter had been at a retreat for the weekend with her. They were eating whatever was prepared when the daughter, who'd, had problems with foods causing hives and blemishes as a history, began to break out. She'd forgotten to watch her diet and her normal medicine to help

fight this problem. **The mother and daughter knowing the name of Jesus, their authority given by grace, God's will to heal, decided they were not going to accept this. They prayed and rebuked the hives and within a half an hour they were completely gone.**(10/20/09)

AWMI.ORG

06/15/10 — "I've been serving as a Baptist pastor for the last seventeen years..."

I've just finished reading another one of your books. I'm fifty-four years old, and I've been serving as a Baptist pastor for the last seventeen years. You are saying things I've never heard before. But the Spirit of God in me is confirming truth. I just prayed the prayers at the conclusion of your book *The War Is Over*. I'm hungry for a Gospel that is truly life-changing.

B. and D. B. Naples, TX

Lordsbcc.com

Andrew, I am a pastor in New Jersey. I left my denomination five years ago and started a new church. When I left, I was frustrated with the shallowness of ministry. I had been exposed to the word of faith message decades ago, understood the baptism, believed in healing, but the results of ministry were very disappointing. Frankly, I didn't understand faith and grace as you do. I was also afraid to preach various controversial topics such as healing, speaking in tongues, the gifts of the Holy Spirit, etc. About six months into this new church, I told the Lord from my heart that if I didn't understand faith and healing, see a change in my life, teaching, focus, and results, I would never teach or approach it (healing) again. I also determined that I would speak in tongues every day for six months waiting for an answer. About one month into this, I stumbled across your

television program. I had decided not to watch television ministries because generally it only discouraged me to see how successful they were. Your presentation was not promotional of self. I decided I would check it out. I must have listened two or three more programs when I heard you say, "Your faith will not move God!" You had my attention. Then you taught about grace and faith. I'd never gotten that memo. I downloaded your message and showed it to my wife. That began a new paradigm shift in my life. I've taught many of the things you have taught me to my little congregation. I have never been more fulfilled, more relieved, and more excited that possibly ministry will be all that I expected. For me, God has taken away my reproach of feeling so powerless. I honestly believed that God was not with me like He was with others. Your teaching has reproved me and corrected my misinformed heart. Thank you.

I want to thank you for making these past two years of ministry closer to being biblical than my past twenty.

AWML.ORG

05/28/10 — "Last year, I was diagnosed with Type 2 diabetes..."

I am contacting you with news of great joy. Last year, I was diagnosed with Type 2 diabetes. I had studied previously and found that healing is in the Atonement—"by HIS STRIPES we are healed." A dear and precious sister in the Lord gave me your tapes and told me to read the Gospel of Matthew. As I read, I discovered that our beloved Savior never turned ANYONE AWAY. And I remembered that Jesus is the same today as He was back then, that "as you have believed, so let it be done for you" (Matt. 8:13). I put off going to see a diabetes educator, and all the other stuff I would have gone through. I just believed in my heart of hearts that the Lord was able and willing to heal me. About three weeks ago, I had a blood test to

check my sugars, and they were 5.2 (normal is between 5 and 8). The doctor said there is no sign of diabetes!

Praise Jesus' beautiful and wonderful name I am healed. Jesus healed me!

I just wanted to thank you for your teaching and wonderful tape "Healing Scriptures." They helped build up my faith. I began to realize our God and Father was willing to heal me. Again, thank you and God bless.

Lordsbcc.com

One man testified that he had a game changing event in his life. **He had a wart on his hand all of his life AND he'd developed a skin cancer on his shoulder right next to his neck.** Both were making his life miserable. The first was large and embarrassing. The second began about three years before and it was growing. This growth was constantly being opened with bleeding that would ruin many of his shirts. There was pain involved whenever he hit it. One time his son wrestling with him on the floor opened this growth on his skin when he hit it. He'd heard about God's menu that we can access it by faith. This menu includes those promises that have already been given and done. Healing was accomplished in the cross for everyone. He understood that he had the right to speak in Jesus' name against these two problems in his life. One night before his shower he'd grown tired of living with this growth and his huge wart. He spoke to both and said that they were no longer to remain on him in Jesus name. He went about his business and took his shower. When he came out of the shower he noticed that the growth was gone. Then he looked down at his hand

and the wart was gone! He shared his story in our service giving God glory for giving us authority in the name of the Lord.

AWMI.ORG

05/11/10 — "RA is a progressive, crippling and incurable disease..."

First, I want you to know how much I appreciate your teaching. Because of my religious background, it's taking time for much of it to sink in. Some years ago, I was diagnosed with an aggressive form of rheumatoid arthritis. After I sat down, I dreaded getting up because I would be so sore and stiff. Irritating burning in my joints would often wake me in the night, and some days, the inflammation was so bad, I would be exhausted, as though I had the flu. RA is a progressive, crippling and incurable disease, so the rheumatologist warned me that I must take the drugs that sometimes slow down the disease. The drugs can cause other very serious health problems, so I didn't take them. I then ran into a woman who was diagnosed with terminal cancer. After three or four years and an up-and-down struggle, she is now completely well. This woman suggested I watch your series *God Wants You Well*. I did just that and was incredibly encouraged. It has been an ongoing healing, but I now lift what I want, walk as much as I want, and no longer feel that exhaustion. I thank God for what He has done for me. I now pray that He will give me a "creative" miracle, healing the deformity that had begun to reshape my joints, so I can show the rheumatologist what God has done and hopefully encourage her.

I'd also like you to know that some weeks ago, I called your Helpline because I had had a sinus infection, and the symptoms would not go away. A very kind person prayed with me, and the next day, the symptoms were completely gone.

One more thing: The subject of predestination has always discouraged me about my own possible standing in God's eyes and, more recently, about the standing of my husband and son—not even knowing if it did any good to pray for them. Your *Sacred Cows* teaching on predestination makes sense to me and is so liberating. Thanks so much.

J. I. Fitchburg, MA

Lordsbcc.com

-Another man whose cousin was in the hospital since May decided to pray the way (the preacher) had taught. His cousin around mid to late 30's or early 40's had taken seriously ill with complications so severe the doctors had said repeatedly "*Call your family he isn't going to make it barring a miracle.*" Upset and grieved at the doctors report and the fact that his cousin had been unconscious and unable to speak he decided to pray. His wife had left the room because the cousin's physical condition was deplorable with tubes everywhere and an open stomach area that doctor's had not closed. **Being left alone he cried and prayed but then raised his hands over his cousin's body and in the name of Jesus spoke to his condition to be healed.** He said within himself "If this works, I will share it in the congregation." Now he was not the kind to feel at ease with such a promise. He was not comfortable with sharing in the church. Two weeks later this cousin has had a miraculous turn of events. When they returned to see him (the cousin), he was not in intensive care but in a large room, sitting and watching TV. When they saw each other, they spoke for the first time in two months. What did the cousin want to talk about? He wanted to talk about the Giants football season with his cousin a big Giants fan! Although he is still in the hospital he is recovering and his diagnosis has completely changed. This man

stood up and shared this testimony of answered prayer August 2 2009. **(Update: This Cousin is now home and doing well!)**

-Another woman said that she has had success in refusing sickness, colds, and/or fever by rebuking the early symptoms in Jesus' name.

-Another man said the same thing in regards to colds, sinus problems or flu symptoms. He has rebuked early signs of such things and had averted their progression in his life.

-Another young man testified to the same thing concerning colds, that he has rebuked the early symptoms and refused to accept them in Christ's name!

04/20/10 — "I have been very blessed and "revolutionalized" by your teachings..."

I have been very blessed and "revolutionalized" by your teachings, brother Andrew. I have been exercising the authority given to me from Jesus Christ. I recently laid hands on one of my patients in a nursing home and commanded the muscle in her bladder to be restored, and immediately it happened. After dealing with this for fifteen years, her body now functions normally, without being catheterized. AMEN!

W. Portland, Oregon

Lordsbcc.com

-A nurse having an elderly woman with a 103 temperature even after pain relievers had been administered to her, felt led by the Spirit to lay hands on her and rebuke the fever. She knew they couldn't give her any more medicine so she grabbed her hands

in hers and rebuked the fever to leave her body. This nurse left to attend other duties but soon returned to find the elderly woman resting without a fever!

-This same nurse had another older man on her floor who'd had a stroke. When he came in he was confused, disoriented, and unable to communicate. This caused the man to be disturbed and restless. The nurse felt led to lay hands upon this man too. She held his hand and placed her other on his head. She rebuked the spirit of confusion commanding it to come out. After returning the next day she came into his room she was greeted by this man, "Hey, nurse _____ I want to thank you for what you did for me!" He was well, alert, and even knew her name!

AWMI.ORG

04/05/10 — "I was desperate because I had been trying to have a baby for over seven years..."

In 2006 I was desperate because I had been trying to have a baby for over seven years without success. I had visited different doctors, and after tests, they finally told me I would never be able to have children. I was devastated. But then a thought came to me: *I have asked doctors to help me except for the ONE that surely could help me! The only one capable to make miracles: Jesus!*

I humbled myself before the Lord and told Him that doctors weren't capable of helping me, but I knew He could! I told Him I know He gave us the Holy Spirit to help us and guide us, and I wanted the Holy Spirit in my life to help me conceive a baby. I asked Him what I needed to do to make a miracle happen. He told me to turn on the television, and there you were, Andrew. I had never heard of you before, but I felt the voice of the Lord

telling me to go to your website and follow your instructions to have my miracle.

I was so excited. I didn't tell anybody, because I didn't want people to bring unbelief into my life. And it happened! And it was confirmed that I had conceived.

I know that you are anointed by the Holy Spirit, and your teachings are true because it was the Holy Spirit who guided me to you. Your teachings have had supernatural results in my life. Bless you all.

G. Paris, France

Lordsbcc.com

-One of our youth leaders grandfather was deteriorating gravely with kidney failure and was sent to Robert Woods for serious care. **This youth laid hands upon his grandfather (who was unconscious) and in the name of Jesus prayed the prayer of faith for his recovery.** One day later he had a turn around and then the following day was released from the hospital to go home in good condition!

AWMI.ORG

02/22/10 — "About three weeks ago my fingertip got caught in a heavy car door..."

About three weeks ago my fingertip got caught in a heavy car door and busted open. I did not want to seek medical care. I called my pastor for prayer, but he was not immediately available, so I called your Helpline. The major bleeding stopped shortly after. I had minimal pain, but the injury did not stop me from doing anything. There was no internal infection.

No pain pills, stitches, or antibiotics—just a few short days of standing on the Word and not letting the eyes of my flesh interfere. I wish I had a before picture so everyone could see the healing that took place and the beautiful restoration accomplished through our Lord Jesus. Thank you for not wavering in ministering truth.

Unknown

Lordsbcc.com

Another man after hearing of this testimony believed God in **healing his cut finger**. He'd cut it to the bone and it was bleeding badly. He knew he'd need stitches. He put a napkin around the finger to stop the blood flow. Then he stopped and decided in his heart to apply the name of Jesus to his cut finger. He spoke that the blood is to stop bleeding out of the cut. He spoke that the tissues re-adhere. He spoke for the pain or throbbing to stop. He was led to rub his finger with his thumb. He did this until the pain stopped. After twenty minutes he removed the napkin to find that the finger was mended with just a thin line where the cut was. He came to bible study and showed all present the cut finger and his healing.

AWMI.ORG

02/03/10 — "I can't put a price on what God did in my life..."

I was listening to your fifteen-minute podcasts all night. The next day, after church, a friend of mine began describing to me this strong pain in his right shoulder. He had dislocated his shoulder a while back and had experienced pain off and on ever since. As he was describing the pain, this phrase went through my head: "Don't go to God and tell Him about your

problems; go to your problems and tell them about your God.” So I asked if I could pray for his shoulder. He said yes, and I spoke directly to the pain. I then told him to move his arm. He said it still hurt. I prayed again, and then he responded, “Whoa, that’s crazy—it’s gone!” I believed God could heal and that He still does today, but I didn’t fully believe he could do it through me. It’s been two weeks now, and I have been commanding pain and other things to leave those whom God puts in my path. I have never felt God move through me like that before.

I can’t put a price on what God did in my life and what the truth you spoke meant to me. Be encouraged, brother, and continue spreading His truth. It’s changing lives!

A. B. Las Vegas, NV

Lordsbcc.com

-A mother of two came home late to find her daughter crying and unable to sleep due to a head ache pain. **She decided to try praying and speaking to the pain laying hands on her daughter.** After praying ten minutes she started to get up from her bed when her daughter turned to her and said, *“Mommy, thank you for taking away the pain.”*

Recently at a SEEK HIM TIME:

-A woman with back pain because of needing a chiropractic adjustment during our meeting spoke out to testify that she no longer had any pain.

A son had a really bad tooth ache at night that Tylenol or other pain relievers had no effect on. He called his mom and she rebuked the pain. After a few minutes the pain left. She went to bed but couldn’t sleep. Her son called again because the pain returned. She came back to him, discussed the prayer of faith

and authority that both of them needed to agree on. They prayed together and the pain left. In the morning she took him to the dentist to find out that his cavity had struck the nerve and he needed a root canal.

AWMI.ORG

01/18/10 — "My little Joseph was born with a hole in his heart..."

We got our Miracle! Praise God! We send our gratitude and blessing to all of you who have been praying for our son, Joseph. Most of all, we thank the Great Physician, Jesus Christ, for the miracle healing! Thank you for praying for us and sending us faith and healing CDs.

My little Joseph was born with a hole in his heart. The hole was large enough that the doctors needed to check it every year to monitor its size. We were told that if the hole didn't close up on its own, they would need to do open heart surgery to fix it. Every year, we have had it checked, and it had not changed at all.

This year, Joseph's doctor said the hole was still there, had grown, and was causing heart enlargement. She recommended surgery. So I scheduled his surgery and did everything the doctors recommended.

Soon after, I began to pray, and I called on many people to pray. I stood and believed for the miracle no matter how many others believed for the good surgery. I had to resist doubt—a lot.

On the day before the surgery, Joseph was scheduled for a recheck. On the first echo, they couldn't find a hole. They called in another doctor to do a second echo, and he found a tiny hole

and NO heart enlargement. He said the hole was so tiny that he didn't see any need for surgery. The surgeon wanted us to go ahead with surgery the next day but would check his heart again just before. The next day, they found the same thing, that there was a hole, but it was too tiny to need closure and there was no heart enlargement. Surgery was CANCELLED. Hallelujah and glory to God!

Lordsbcc.com

-A woman's son-in-law was in the hospital due to complications that included sugar levels around 900, kidney failure, pneumonia, and a heart attack. The doctors told the family he would die. He was in ICU for six days and grew worse. **This woman and members of our church prayed rebuking his physical conditions, the heart attack, and death itself at a Friday night and then Saturday prayer time.** This young man (33) walked out of the hospital Saturday afternoon and went home, not to die, but because everything that was threatening his life was gone! The doctors said they had no explanation for it--it was beyond reason. (10/23/09)

AWML.ORG

01/04/10 — "It is a type of cancer that has been called incurable..."

I really don't know where to start. I had been diagnosed with cancer called leiomyosarcoma back in October 2001. It is a type of cancer that has been called incurable and just keeps coming back. It does not cause pain, so I never know when it returns, unless I have a CAT scan. I've undergone radiation and chemotherapy. I have had so many surgeries, I have actually

lost count. I even lost my job as an RN Case Manager because I was in and out of the hospital so much.

I discovered you on the internet, and it really changed my life. I found that you were doing a *Gospel Truth Seminar* in Raleigh. I was determined to go and have you pray with me. You taught about Jesus taking not only our sins but also our diseases and all health problems—so much so that He didn't even look human. I had never thought about it like that. Well, you prayed for me, and not only did you pray in agreement that I would be healed, but you also had a word from God about emotional problems that I was holding on to. You prayed about that too. It was an awesome time for me.

After coming home, I just knew that things were changing. I couldn't see any difference in my body and I didn't feel any different, but I knew I was growing spiritually.

Well, today I went to see one of my surgeons and had a CAT scan. Praise God, he looked at it and said it was clear. He couldn't see anything. I can't remember the last time I had a good CAT scan, it's been so long. I can't stop thanking God. I just know that it all stems from what you said to me in Raleigh, that I didn't have to beg and plead with God to heal me—I already had it. I had to appropriate God's grace for myself.

Thank you so much, as I don't think I'd have this healing if I hadn't learned from you that "I already had it."

M. K. Munhall, Pennsylvania

Lordsbcc.com

-Restoration of young lady's life nearly lost in an accident told she'd have great difficulty or may never walk again, after laying

hands upon her, has been recently diagnosed that she would have a complete recovery.

-Several issues of cancer rebuked and spoken “this will come to nothing in Jesus name.” Both are cancer free... (What a coincidence?)

AWMI.ORG

12/29/09 — "Not only has the Lord broken the chains of a thirty-year smoking addiction..."

At the *Summer Family Bible Conference*, you told us about a man who wanted to quit smoking cigarettes. He was told by his minister to smoke as many as he wanted but that each time he lit one up, he should say that he didn't want to smoke cigarettes. He agreed and was delivered from the addiction. I was like, “Huh?” But I assumed the Holy Spirit prompted you to share that story.

For about three to four weeks, I would say, “I don't like cigarette smoking, I don't like smoking cigarettes, I hate cigarettes.” Then one night while my husband and I were watching you on television, I turned to him and said, “I've smoked my last cigarette tonight.”

Not only has the Lord broken the chains of a thirty-year smoking addiction, but He has also delivered me from a twenty-year caffeine addiction (I used to drink ten to twelve cups of coffee a day). Part of me wants to say I have been set free for two months, but my spirit tells me that's a lie. I've been set free—period.

One woman who'd had a bad ankle for years has a job that requires her to stand on it nearly twelve hours a day. Some days the swelling and pain are so bad that she can't walk on it. After understanding grace and what Jesus has provided in the atonement, she has begun to exercise her faith and speak healing to her ankle. She had experience temporary relief only to have it return. She has addressed her ankle again and again and experienced a three week period of no pain. Then, for two days she experienced great pain as bad as ever. Not giving in or giving up she got angry that what Jesus had provided her was not manifesting. She spoke again and the following morning felt no pain again. For several days now no pain; she called the pastor for an explanation as why or what is going on in her struggle to overcome and receive her healing.

AWMI.ORG

12/14/09 — "Your free iPod downloads have changed my life..."

Let me start by saying thank you to you and your partners! Your free iPod downloads have changed my life and the lives of those in my Bible class. We have been teaching on healing and that signs will follow the teaching of God's Word to prove it is the truth! So, at my Bible class, I taught and then asked if there were any physical needs. A lady spoke up that she had fibromyalgia, was almost totally deaf in her left ear, and had two bones removed due to repeated ear infections. I laid my hands on her and simply told fibromyalgia to go in Jesus' name and then laid my hands on her left ear and then commanded the ear to hear in Jesus' name. No classes were held the following Wednesday, but on the one after that, she came in and told the whole class that she was totally healed of everything! Praise the Lord for His Word! Many, many thanks!

J. F. Carrollton, Virginia

Lordsbcc.com

A young woman stood up in our congregation on Father's Day to speak about the miracle she'd just seen. **Her father had had liver cancer** and was growing worse day by day. The doctors told him he'd have less than four weeks. He was losing weight and all hope. His Pastor came to the hospital and laid hands on him rebuking the cancer. In the next few days his pain left him, they reexamined him to find the cancer was gone. He regained his weight and was released healthy and whole. Amen and praise God that His word when believed and acted upon according to His design accomplished what it was sent to do.

AWMI.ORG

11/19/09 – “Nearly three years ago, I was given about six months to live . . .”

Nearly three years ago, I was given about six months to live. It was stage 3-c, cancer. The doctor's prognosis was poor with or without chemotherapy. In fact, when I studied the chemo that was recommended, I realized that I would actually be better off without it. I refused chemotherapy.

Now, I knew what the Word of God said about my healing, that Jesus bore my sicknesses and carried my diseases and that by His stripes, I was healed. That is how I had lived the last twenty-five years of my life. But when the doctors, the tests, and my body were all saying the opposite, I was tempted to react in fear, and I was in fear. I had a couple of weeks of sheer panic. Nevertheless, sick as a dog and scared, I ran to God. I knew enough about Him to know that this was not from Him.

I had to make a no-backing-down decision that by the grace of God, I would live and not die and declare the Work's of the Lord. I said that out loud to myself constantly. I also attended your healing service when you came to Framingham, MA, last summer. I cannot express how important this service was to my healing. After attending that service and having hands laid on me, the healing of my body really began to manifest in the flesh.

My healing has been an experience and an opportunity to better understand the faithfulness of God and that He Is The Answer. What Satan would have used for evil, the Lord has used for good.

All my tests results are outstanding. I am healed and made whole by the Word of God. Because of His faithfulness, I will live and not die and declare the works of the Lord!

M. B. Nottingham, NH

A man had been arrested for a sex crime. He hadn't actually committed any act but was caught in a police sting. Tried and convicted he was sent to prison. Prior to his sentencing, trial, and imprisonment he'd come to see our pastor. Both he and his wife received salvation and began attending regular meetings, bible study, Seek Him time, etc. until his incarceration. **While in prison our pastor went to see him and laid hands on him that the Lord's protection surrounded him and no one would lay hands on him to hurt or injure.** That very week a report came back that he'd been attacked in prison. Many who are sent to prison for sex crimes, especially for underage involvement, are brutally beaten and sometimes killed by other inmates. When the truth finally came out, it was his bunk, possessions, and

items that were taken, torn, or destroyed but he actually had not been touched. He testified that some 35 inmates were poised to attack him, ready to beat him up severely. He said that just hours after the pastor prayed he'd walked right through many of them and no one attacked. **He spent a year in prison first at the local jail and then the county prison and not one time was he hit or touched.** He was in tears realizing that God commissioned his protection and had fulfilled his promise. (In contrast, a teacher (man) who'd been sent to prison for having sexual relations with a junior high girl within a short period of time has been beaten and attacked multiple times severely. Upon investigating this phenomenon concerning sex crimes and inmates being attacked, one guard put it this way, if the inmate population finds out that you're incarcerated for a sex crime, especially of minors, it is ten out of ten that man will be attacked and beaten.)

11/10/09 — "I woke up with sharp, stabbing pains on the side of my head..."

I want to share with you a miraculous healing I received last week. I have no doubt that this healing manifested in my physical body as a direct result of the Word of God I have been taught by you, Andrew. The bottom line is, I believe with all of my heart that God wants me well! This is awesome news!

Last week, in the middle of the night, I woke up with sharp, stabbing pains on the side of my head. It felt like an ice pick stabbing me repeatedly. The pains kept me up the rest of the night. They progressed in intensity and frequency until they were only seconds apart. Because of what I have been taught, I did what James 4:7 teaches, which is to resist the devil and he

will flee. I continued to have the pains the entire next day, but I continued to resist the devil. The pains kept me up a second night with very little sleep. I was exhausted physically, but I was not about to give in or give up. The next morning, with the pain still there, just as intense and just as frequent, I knew I had had enough. I remembered that you were teaching on healing on the *Gospel Truth* program. That day's program included the miraculous healing of Niki Ochenski. I'd seen it before, but this time it became personal and real to me.

Because God is no respecter of persons, I knew that what Niki received, I could receive as well. I began to pray in the Spirit, and I began to praise the Lord with all that was within me! All of the sudden, I realized that the pains in my head were completely GONE. The pain tried to come back a few times, but I resisted with the Word of God. The devil fled and he has not come back. Thank you, Andrew, for the stand you have taken to bring the truth of God's Word to us on a silver platter. I am so thankful to know, to believe, and to experience this truth in my life!

-A mother of two came home late to find her daughter crying and unable to sleep due to a head ache pain. **She decided to try praying and speaking to the pain laying hands on her daughter.** After praying ten minutes she started to get up from her bed when her daughter turned to her and said, "*Mommy, thank you for taking away the pain.*"

-A woman on vacation with her husband, staying with family developed a severe migraine Headache. She had to lay down in bed and keep her eyes closed. She felt like vomiting and with dizziness. Her family wanted to go out to dinner but she'd told

them to go without her. They didn't want to and waited for her to get better. She'd had these before but she was in a better place knowing God's word, the authority of the name of Jesus. After some time had passed she prayed, "Father God, help me to get rid of this pain; in the name of Jesus I command this pain to leave!" She decided to act on her faith and stood up, walked out of the room and joined her family. After a few moments she said the migraine was gone. She did go out with the family to dinner after all of this. She praised God for hearing this teaching on grace and faith, the healing we've been given and the authority to speak to our issues, problems, and pains. Amen.
